Ref. Councilman James Singleton resignation from JVPD

Date: 7/2/2018

This Memo is in reference to an incident involving Councilman James Singleton.

While Singleton was employed at the Jersey Village Police Department he had used the Police Car MDT computer to watch pornographic material and masturbated in the Patrol cars.

The situation came to light when Detective Shawn Horton got into a patrol car with Officer Craze. Det. Horton started the Patrol car MDT computer and pornographic material came up. The Patrol car was Officer Craze's regular shop and Officer Craze DEMANDED an investigation be conducted because he did not want to be responsible for the material on his computer.

I.T. was contacted and Bob Blevins checked the MDT Computers.

The Investigation revealed that James Singleton had used several Patrol cars at Extra Jobs at Lonestar Chevrolet and had looked at Pornographic material on all of the cars and on several occasions. I blue light was used and James Singleton admitted top masturbating in the patrol cars while watching pornography.

I had knowledge of these incidents because Detective Shawn Horton and Officer Craze had both discussed it with me.

I personally had a conversation with James Singleton. Singleton told me he was addicted to pornography and was going to seek help. I told Singleton that on Monday, the Chief of Police (Wedemeyer) was going to call Singleton into his Office and fire him for Watching pornography and masturbating in the patrol cars OR Singleton could resign and explain to his future employers whatever he wanted. Singleton elected to resigned that Monday.
